HITCH IN THE HOSPITAL PLAN

SISTERS READY TO TAKE POSSESSION MONDAY.

CONDITIONS ARE PROPOSED

By the Owners, However, Which Members of the Citizens' Committee Are Unwilling to Accept.

There is a misunderstanding in the proceedings for taking over the Palmer Memorial hospital property and no one of the parties to the proposed transaction—either Dr. Palmer or the members of the citizens' committee seem to entertain the same idea of just what is the matter. According to Dr. Palmer it was understood from the beginning that the present name should persist and that ground should be broken or some evidence, at least, given within one year's time that the Sisters of Mercy would construct an addition accommodating not less than thirty beds.

Members of the Citizens' committee say that the Sisters are perfectly willing and have signified their willingness to preserve the name by incorporating it in the title, "Palmer Memorial Hospital," but that there was never at any time an understanding that this condition or the second one relating to the proposed addition should be recorded in the deed. About \$4,100 was subscribed and the property was to be taken over for \$10,000, a mortgage being given for the balance. It was desirable that the deal should be closed up today or tomorrow as Miss Baker plans to relinquish the management of the present institution on April 1, but when steps were taken to bring the matter to a head, the committeemen claim that the sisters began for the first time to talk about conditions and that certain of these conditions did not please parties who had subscribed the money. One large subscriber, without given any reason whatever, says that he was not feeling as well as he did at the time he promised to donate and withdrew his subscription for \$100 but the balance of the money is believed to be collectable if a satisfactory adjustment is made. Such stipulations as have been recited, if recorded, they claim would constitute a lien on the property and cloud the title in event the owners should find it necessary to dispose of the property. They say that they are paying the price and a good price and that no such restrictions should be contemplated.

The Sisters have shown their disposition to accept the name by using it in advertising the charity ball. Dr. Palmer has Archbishop Messmer's word that it will be retained. When asked about the matter today the Sisters said that they were all ready to move in Monday next with five Sisters and a graduate nurse from the Mercy hospital, Chicago—Miss Mary Irene Kelly—who is to have charge of the surgical work. They hope that everything will speedily be adjusted to the satisfaction of all concerned.

Dr. Palmer's Statement
Late this afternoon Dr. Palmer stated that everything had been arranged to the satisfaction of all parties and that the deal would go through as planned.

LIABILITY ACT IS UPHELD

JUDGE EMORY SPEER SUSTAINS THE EMPLOYERS' LAW.

Declares Congress Has Right to Protect Men Engaged in Handling Any Commerce.

Macon, Ga., March 26.—United States Judge Emory Speer Monday in a decision in the case of Lucy Sneed, administratrix, against the Central of Georgia Railway company, upheld the constitutionality of the employers' liability act, passed by the last congress.

This decision is opposed to those of United States Judge Evans at Louisville, and Judge McCall at Memphis, who declared the act repugnant to the constitution of the United States. Judge Speer declared that, to command, to prohibit and to protect men engaged in the handling of commerce, whether interstate or foreign, is within the domain of national legislative regulation. Congress having the right to control commerce on the high seas, as established by the courts repeatedly, it follows that it has the right to control the transportation by land of the same commerce.

The creation of the interstate commerce commission, the enactments against arbitrary and discriminating rates, the adoption of the anti-trust law, forbidding combinations in restraint of trade, held directly applicable to railroads, even though chartered by states, the law denouncing rebates and forbidding passes in interstate traffic, are quoted as illustrations of the power of congress to control such matters. Judge Speer shows that many states and foreign nations have adopted the law which congress has enacted, although many states, forbidding an employee to recover for injuries sustained by the negligence of a co-employee, have maintained and enforced the law. Congress, determining that there should be uniformity for the protection of the million or more employees of railroads in the United States, enacted the law of which the constitutionality is called in question.

Biographical Sketches

Thomas Edward Cook was born in Birmingham, England, February 25, 1852, and came to America at the age of eighteen. His wife, whose maiden name was Mary Jones, was native of Syracuse, N. Y., and began her life on February 6, 1853. They were married in Chicago, March 26, 1857, and there resided until 1874. During the greater part of that time Mr. Cook was the proprietor of a tobacco store. On leaving the Windy City they came to Janesville and for twenty-five years made their home on Pleasant street. A year ago they took up their residence with their daughter, Mrs. Case.

Mr. and Mrs. Cook are the parents of five children—Mrs. George Schaller of Terrace street, George Cook of Chicago, Mrs. Charles Wells of Chicago, Mrs. Mary Cornwell of Clinton and Mrs. Levi H. Case of Linn street.

Mr. Cook is a prominent mason and a veteran of the civil war. He is one of the oldest members of Janesville lodge, No. 55, T. & A. M., and is a past grand master. His service in the army was with Company A, Twelfth Illinois Infantry.

The Inevitable

You don't want to be called old, but it's coming. It has come with everybody else who has lived long enough, and it's coming with you. So, keep on smiling, and if you're eating three meals a day and getting round on your feet there ought not to be any real cause for complaint. Let the crown of years be a fragrant wreath—Manchester (N. H.) Union.

ROUMANIAN RIOTS NOT ANTI-SEMITIC

CANTACUZENE BLAMES AGITATION IN RUSSIA.

REFORMS ARE PROMISED

Peasants Continue to Loot and Burn in Several Districts—Troops Concentrated to Defend Jassy.

London, March 26.—That the Roumanian government considers the recent trouble in Moldavia and Wallachia to be a result of similar disturbances in the adjacent provinces of Russia, and not of an anti-Jewish character, is evident from a communication made by Premier Cantacuzene and telegraphed by him from Bucharest to London. The premier says: "The grave troubles, which have broken out in Roumania, do not arise from any anti-semitic feeling. They are of a well-defined agrarian character. The peasants are not only devastating the houses and farms of Jewish farmers, but also those of Roumanian landed proprietors. It is undeniable that these sad occurrences are, in part, a result of the agitation now prevalent in Russia, especially in Bessarabia, which borders on Roumania."

"The Roumanian government is taking energetic measures to restore order and it hopes that by active military intervention rioting quickly will be suppressed. Immediately thereafter the government will introduce a series of measures providing for the necessary agrarian reforms."

Peasants Plunder and Burn

Bucharest, Roumania, March 26.—The plundering continues on a large scale in the districts of Roman, Putna, Jassy and Botosani. The peasants are setting fire to everything within reach, but they flee on the appearance of the soldiery.

The foreign consuls at Jassy have asked the authorities to take measures to protect the resident foreigners, and the prefect of Jassy has given assurances that the necessary precautions will be taken.

The minister of war has ordered the mobilization of four additional regiments at Jassy, where 12,000 troops already have been concentrated. At Jassy the artillery is encamped on the principal street. All the shops in town are closed. It is reported that a very large number of peasants, estimated at from 40,000 to 50,000, are ready to advance and attack the place. Copies of a manifesto were distributed in Jassy Sunday accusing the government of responsibility for the recent disorders and advising the people to take the law into their own hands. The author of this manifesto, the procurator of Vaslui, has been dismissed from office. A condition of anarchy prevails at Nanolossa, and the reports from that village are alarming.

Troops Kill 200 at Galatz

A bloody encounter between peasants and military is reported from Galatz, where on Sunday the troops fired on a gathering of peasants killing 200.

From Vaslui it is reported that organized bands of robbers are marauding the district. The leaders of these bands have assumed the title of "general" and contributions are being levied from all villages and farms.

Reports from the naphtha districts show that this section of the country is still quiet.

Austrian gendarmes at Zenatry have arrested some Roumanian soldiers who were endeavoring to sell loot.

The situation arising from the agrarian revolt has become so serious that the Roumanian parliament is considering the advisability of investing the government with extraordinary powers.

It is declared that the health of King Carol has suffered as a result of these disorders.

CANAL ZONE VERY HEALTHY

Only Two White Laborers Died in Month of February.

Washington, March 26.—Only two deaths occurred among the 5,554 white laborers in the canal zone during February. Black water fever caused one of these deaths and tuberculosis the other. No deaths were reported among the 900 American women and children on the Isthmus. The sick rate was 24 for every 1,000 persons for the month. Pneumonia was more prevalent than any other disease, 26 cases being reported. Three cases of smallpox, taken from incoming ships, were treated in the zone hospital. The annual death rate has now fallen to 4.2 per 1,000.

Great Gas Well Burning

Sapulpa, I. T., March 26.—A great gas well, two miles east of Sapulpa that caught fire last week is burning furiously. Workers in this field are terrorized and have been unable to do anything to check the flames. Pools of oil on the creek adjoining the well have caught fire and the heavy black smoke from these adds to the spectacle.

When completed it will be occupied by the Bassett & Beullin Co. and the present quarters of that concern will probably be leased to some other manufacturing institution. There has been some talk of the Kalamazoo Knitting Co. taking possession, but no arrangements have been made. The Knitting Co. is slowly training a number of competent artisans to run its machines and may be in need of larger quarters by fall.

WENT UNDER CARS; LAID UP FOR MONTH

Oscar Mabie Struck on Back by Iron Step and Painfully Injured.

Tired of being held at the North Academy street crossing while on his way home Saturday evening, Oscar Mabie crawled under the bumpers of the blocking freight train and as he was straightening to continue his walk the cars were given a sudden shove and he was struck down. An iron step hit Mr. Mabie in the back and inflicted painful injuries, bruising the muscles and the lower ribs. On reaching home he summoned Dr. James Gibson and an examination showed that the injuries will confine Mr. Mabie for a month. Mr. Mabie is employed at the West Side Farmers' rest and is a prominent member of the Modern Woodmen.

Good Health in the Home

depends largely on its sanitary equipment.

You should be exceedingly careful to have the bathroom as thoroughly modern as it is possible to make it. Of course, the plumbing of the kitchen and laundry should have similar attention.

There is one important thought for you to consider, namely, good plumbing always costs a little more at first, but is always cheapest in the end.

We can solve the plumbing question for you by having our skilled plumbers install "Standard" Porcelain Enamelled Plumbing Fixtures.

A "Standard" Modern Bathroom will add a wealth of health to your home and increase its selling value as well.

Call and secure copies of the booklets "Modern Home Plumbing" and "Modern Lavatories." They will be of service to you.

MILLINERY MATTERS

There is a distinct satisfaction in knowing that the millinery for the coming season is of such infinite variety of style and shape that while following the latest fashions faithfully, everyone can be well suited. This happy state of affairs prevailed last year, and was so much appreciated that the powers that be in the domain of fashion have evidently determined on the same popular policy once more—certainly a marked amount of favor is allotted to the mushroom brim, but then its softly curved shade is becoming to most faces, and for the rest there are hats of almost startlingly contrasted size and shape.

Wonderful indeed are some of the new hats designed in Paris for spring wear, and great will be the courage of the wearers of some of them. No design seems too grotesque for originators of millinery to spring on a gullible feminine public. Luckily the majority of women realize the effect of too extraordinary chapaneau and refuse to lend their services to the promoters of the truly ridiculous. Of course there are a few women so beautiful in form and feature and possessed of such grace and chic that no hat could possibly spoil them, but there are not so many of these, and then, too, these women know very well, as a rule, what they may and may not wear to set off their abundant beauty. In spite, however, of a number of outrageous shapes—and outrageous shapes appear every season in the too great striving for novel millinery—there are many charming hats being imported and also created on this side of the water.

The earlier hats of any season are usually modes of the moment only. Many are bought by women whose winter millinery has either lost its freshness, or has become an old story to them, and they purchase several hats merely to vary or freshen their ensemble, and as they buy them for a few weeks' wear only, they take whatever is offered, without, as a rule, sufficient attention to the style or its becomingness.

The Parisian with her marvelously dressed hair may venture on many a hat that, perched above the too often careless coiffures of other women, would prove fatal to the slightest degree of chic. The French woman shows no tag ends of hair. Brilliant line and hair nets may be used, but the effect is perfect. In Paris, fortunately, the even Marcel wave is out, and all waving is done in the loose, large, irregular fashion so much more natural and so much more pleasing to the eye that has not lost its appreciation of the really beautiful. Of course comparatively few women look as well with their hair brushed smooth and plain, and those few should make the most of it. Too often the hair is completely ruined by artificial waving, and while its owner is still young her hair is thin, uneven, and lusterless, save when artificial luster is applied. As a matter of fact, and without whose hair is regularly waved with irons should at least have her scalp carefully treated by an expert as often as once a week, and twice is better, else by the time she is 50 she will have no hair worth having growing on her head.

SOME SPRING DRESSES

The popular stripes which fashion has dictated come as a change from the checks which have so long reigned, and are made up in attractive designs which are appropriate both for morning and afternoon wear. To begin with, our illustration, which shows a most exquisite walking gown, demonstrates the possibilities which lie in the wake of these striped goods. The stripes in this dress are

Walking Costume from Striped Cloth, black on a gray ground; and the stripes are sufficient trimming to the plain skirt, except in front, where there are two panels, cut so that the stripes are horizontal, running from waist to hem, narrow at the waist and wide at the feet, and held there by groups of three flat silver buttons. The charming little coat is tight-fitting, with short

basques, which start at either side from the pointed fronts, cut horizontally, which continue the panels of the skirt, and are similarly adorned with groups of three buttons. Tiny white satin revers break the line, and accentuate the contrast of color with the "royal blue" velvet waistcoat, which is delicately braided with silver cord at the edge. The coat-shaped sleeves have a band of the horizontal stripes running from shoulder to waist on the outside of the arm; and the cuffs also show the same disposition. A shirt with a linen collar and a white satin tie gives a smart masculine touch; and the dress is happily completed by a toque of "royal blue" velvet with a mass of cock's plumes. For those who do not care for a coat with basques, the design would look equally well with an Eton jacket or bolero.

On looking over a number of exclusive and very costly models for early spring wear I have been struck by the presence in a number of cases of tight "coat" sleeves. This was notably the case in connection with some extra long afternoon coats. The sleeves of which I am speaking are fashioned like those of a man's coat, and reach just below the elbow. At the shoulder they are almost entirely flat and the effect is wonderfully neat and subdued. I think they used to wear just such sleeves as these in the year 1882 or 1883. Photographs taken at that time portray them.

Buttons become more important and remarkable every day, and are used with conscious care as part of the gown's trimmings. Some are exquisitely painted miniatures on ivory, either portrait heads or cherubic faces. Then there are exquisitely fine little embroideries of flowers, mounted as buttons, in the center of circles of steel or of silver. Some very pretty buttons in an iridescent blue on a beige face-cloth dress proved on inspection to be of pottery. Every sort of ordinary semi-precious stone, especially the amethyst, is set in a surround, of silver or silver-gilt.

MORTON SALT BLOCK BURNS.

Great Structure in Hutchinson, Kan., Destroyed—Loss, \$500,000.

Hutchinson, Kan., March 26.—The Morton salt block, the largest in the world, owned chiefly by Joy Morton and Paul Morton, former secretary of the navy, was destroyed by fire Monday night. The loss embraced a new \$250,000 addition to the plant and a vast quantity of refined salt, and may reach \$500,000.

The fire started from the explosion of a coal oil lamp. Crude oil was burned in the furnaces, and in some way the fire was quickly communicated from the boiler room to other parts of the building. A strong southwest wind fanned the flames and caused them to spread rapidly. In a few days the new quarter-million-dollar addition to the plant would have begun the manufacture of salt by the vacuum process. A battery of eight of the largest oil burners ever constructed had been installed for the operation of this part of the plant. These, with much other costly machinery, are a mass of twisted iron. With the exception of the new part, the plant was covered by insurance.

GREAT STRIKE IMPENDS.

Railway Managers to Refuse Demands of 50,000 Employees.

Chicago, March 26.—Demands of 50,000 employees of more than 40 western railroads for an increase in wages will be rejected as a result of a conference of railroad managers in Chicago Monday. Demands of the men, who have voted in favor of a strike if they are not granted, will be presented to the railroads Tuesday.

The intention of the railroad officials, it is said, is to place leaders of the unions in the position of rejecting a substantial advance, already tendered by the railroads, and thereby losing the sympathy of the public in case of a strike.

Clemency for Capt. Cockran.

Washington, March 26.—The president has approved the recommendation of Secretary Taft that clemency be shown in the case of Capt. W. B. Cockran, Twenty-fourth infantry, sentenced to dismissal in the Philippines for drunkenness on duty, and he has mitigated the sentence to the loss of 50 furloughs. The result is to reduce the captain's number from 275 to 225 in the list of captains, making it improbable that in ordinary course of events he can ever rise above the rank of lieutenant colonel.

RAILROAD ACTIVITY

One of the greatest steps towards the settlement of the United States was the establishment and building of the great railroad systems that now cover this continent. These railroads have done more to make it possible to bring the sterile deserts under cultivation, to eliminate distances and to bring the crops into touch with the markets. It has taken millions of dollars to accomplish this. It has taken fifty years and more to bring the railroads to the state of perfection they are today. The railroads are as necessary to a state as are its citizens. The railroads have been the greatest colonizing sources this country has ever seen. They have made states where fifty years ago nothing but waste plains existed. They have enabled the farmers of the west to become rich and prosperous, have brought the gold and fruits of the Pacific coast to the eastern market, have given the manufacturers of the middle west markets for their goods, have united the north and south in closer ties than more brotherhood, have given an outlet to the eastern factories for their product, in fact, have united this great country into one compact body. Now comes an era of reform. Now comes a period of unrest and the first to feel the influence of the sentiment of a change is the railroads. There may be evils in the present system of manipulations of the roads and of the rates, but the way to correct them is not by a wholesale condemnation of the railroad systems of this country. The railroads are necessary to the prosperity of the country. Annually, they expend millions of dollars in salaries and in expenses. They employ thousands of men who support the different communities in which they live. They are pushing out their lines of extension year by year, annexing new territory, and bringing more land within the reach of the small farmer. The legislation which is planned in many states will seriously hinder the plans of the railroad extension. In fact, three roads have just called off building which would total some forty millions of dollars. The Erie, Pennsylvania and Hartford lines feel the influence of the rabid cry for railroad restriction by commissions and stringent laws that do not consider local conditions. Wisconsin will also feel this same influence. Projected roads may not be built, extensions will not be completed all through fear of laws which may make such undertakings unprofitable. In Milwaukee the work of double-tracking a certain strip of the St. Paul line has been called off for this reason and Janesville may feel the same influence relative to its new yards, the talked of road from Rockford to Milwaukee and perhaps the interurban to Madison. Men are not going to invest their fortunes in enterprises that are in danger of practical confiscation by state governments to meet the whims of the reformers. They can not be expected to expend millions to develop and build up a community that does not care to be developed. Not only have the railroads already felt the action of the state governments, but the interurbans are now being looked after in the same way. There are radical bills before the Wisconsin state legislature for consideration that appear harmless on the surface, but in which "Jokers" may be found that ring the death knell to railroad progress inside the state limits. This is an era of unrest. The first to feel it is the railroad and then will follow other corporations. The people have gone reform crazy and when they awake from their Utopian dream they will find the country on the verge of an industrial revolution such as has never been seen. The citizens are prosperous and their prosperity has gone to their heads. Urged on by the muck-rakers and yellow writers of the yellow journals they have become inflamed with the idea of their own importance and need only the call of a demagogue or a charlatan to call forth the baser elements regardless of the consequence to future years.

THE REAL CHICAGO

In McClure's Magazine for April appears an article on "The Real Chicago," but of all the glittering beauty of the municipality, that is astonishing. It is a sordid story at best, glitters with generalities, but in the main has a ring of truth to it that demands attention. The writer has apparently visited the city he writes of and studied the conditions. However that might be, he treats of a subject, revolting in the extreme in plain unvarnished words that must make Chicago bow its head in shame. That these conditions exist is known to all who know the city. They do not appear on the surface of affairs, but are undercurrent, the under world as it were. Chicago is just approaching another municipal election and

the article is very timely on this account.

While apparently there is no one to run against S. B. Heddles, in his race for Mayor, the results on primary day should give him courage to so administer the laws of the city when he becomes Mayor in fact that he need not fear criticism if he becomes a real Mayor and not a mouth-piece for a certain clique.

Chicago is saved. "Shorbie" Becker, the Boy Mayor of Milwaukee, and his automobile and his two able assistants, Hooker and Ellis, have invaded Chicago to save Busse. If anything beats Busse it will be that same quartette—Becker, Hooker, Ellis, and automobile.

The democratic city committee have announced that they have selected Frank L. Smith as their candidate for city clerk. Mr. Badger received the nomination at the hands of the republicans and will be a hard man to beat, so Mr. Smith has his work cut out for him.

Mr. Heddles has announced he will run on the republican ticket at the coming spring election. It is not often that a candidate is nominated by both parties and has to make a choice. Thus far the democrats have made no selection for a democratic nominee for Mayor which under the circumstances is a wise move.

Despite the fact that the legislature has decided not to vote on the Senatorship for some days yet, a different candidate has appeared again upon the scene and sit like carrion crows waiting for the corpse to be deserted long enough for them to get in their work.

The appearance of "The Clausman" here on Saturday brings to mind the fact that this play produced in Atlanta just before the race riots last fall was one of the elements that contributed to the trouble in Atlanta.

Stanley Tallman, who is running for the short term for justice of the peace, should receive every republican vote cast. He has been a strong party worker and should be honored by this office if he desires it.

The Chicago municipal campaign has turned into the stretch for the end of the close race. Dunne's men appear to have the lead in the mud-slinging brigade, to be right on the firing line as it were.

The Erie and the Pennsylvania railroads are teaching the country a lesson in lawmaking. It would be well to heed their words of warning, as they voice the sentiment of the entire railway world.

While there is no danger, it might interest many to know Rock river is rising. The coming cold snap, however, that the weather man promises may stop it, but at present has come up several inches.

The public is tired of the rehashing of all the wickedness of this world by the muck-rakers and would like something good said of some one for a change.

The fate of Harry Thaw apparently rests with the judge after all and all the arguments of Jerome, the pleas of Delmas and brave heroism of Mrs. Thaw may be of no avail.

Enforcement of the city ordinances is one of the duties of true and honest city officials. If the laws are wrong they should be repealed; if not, they should be put in force.

The trade journals for parks and shows report that they now have on sale moving pictures of the Thaw-White tragedy. Such pictures should be stopped by law.

It has been decided to put off the question of election of a United States Senator until the tenth of April. It is hoped that by that time something will be done.

Berlin was affected by the New York stock market in a wonderful manner. Evidently Berlin must be aspiring to be the panic center of the world.

The downtown streets have taken on quite an air of spring cleaning and the work is appreciated by the pedestrians, who have to suffer from the clouds of dust.

The Capitol commission including the Governor have gone to Georgia to look into the question of marbles for the new Capitol building.

When the railroads begin to entrench because of dangerous legislation it is time to stop the legislation, not the railroads.

Next week Tuesday is election day. Apparently all the contests finished at the primaries from the lack of interest exhibited.

It is reported from Paris that the Thaw trial has ceased to be interesting. Not racy enough for Gay Paris perhaps?

Tom Lawson does not appear to have whooped as much in the past day or two as he did two years ago.

A Madison paper is making a great play for popular support in a fight against the gas company of that city.

The French object to prohibition on the grounds it means the cutting out of the dear Absinth.

PRESS COMMENT.

Whereat Extortionate Merchants Rejoice.

Madison Democrat: The dark horse is at the gate eagerly sniffing the morning air.

Most of Us Being Human.

New York Press: Too many virtues in a man give his friends a big thirst for a few vices.

Suggestion to Upton.

Exchange: Helicon Hall having gone up in smoke, Socialist Sinclair might start a luncheon factory.

About the Size of It.

La Crosse Leader-Press: Expert testimony, as illustrated by the Thaw trial, seems to be two-thirds guesswork and one-third pure rot.

One of the Best.

Milwaukee Sentinel: Senatorship or not, Edward Scofield was one of the best governors Wisconsin ever had. That is matter of record.

No Longer Up and Doing.

Detroit Journal: Dispatches from Samar report the "natives just about subdued." The graves must be fairly close together.

Ware Critics Rough and Rude.

Beloit Free Press: The mobbing of the female mistress Saturday night should be a warning to some of the ambitious local miscreant folks.

Providing They Do Get It.

St. Louis Globe-Democrat: People spend about half their time trying to get what would hurt them, and the other half regretting that they got it.

At Last.

Milwaukee Free Press: In warning people to keep out of the stock market John D. Rockefeller has at last rendered a public service without raising the price of oil.

Good Only as an Issue.

La Crosse Chronicle: We're still in favor of the primary election as an "issue," but bound to confess that it hasn't improved the quality of the candidates for office in these parts more than 1,900 per cent.

Cuss-Words Generously Employed.

Oshkosh Northwestern: According to Rev. Madison C. Peters of New York, Americans are the most profane people in the world. Evidently Dr. Peters must have been spending a good deal of his time among the politicians.

Wants "Lallapaloosa" Defined.

Fond du Lac Reporter: The "molly-coddle" and the "whangdoodle" have both been explained and now Col. Dick Bright might come forward with the authentic explanation of the "lallapaloosa."

What? Lydia!

El Paso Herald: It was suspected that it would happen and it has—the pleasant and benevolent face of Lydia Pinkham is figuring as that of one of the star witnesses in the Thaw trial in the illustrated newspapers. The stock cuts have to earn their rent.

Program is Merely Negative.

Green Bay Gazette: The Madison Journal emphatically denies that it is energetically supporting Governor Davidson for senator. It insists that all it is endeavoring to do is to prevent the election of either Lenroot or Stephenson. And it has tackled a good big job at that.

Attenuated Nonsense.

Exchange: And now comes another expert witness to say that what really ailed Thaw was "maniacal furor," not "exaggerated ego," nor "adolescent insanity," nor "brain storm," nor etc., etc. Meanwhile, an inept police man modestly ventures the opinion that the young man seemed "dopey."

Why Marvel of It's Transparent?

San Claire Leader: The wonder grows at the gentleness, the kindness, with which Gil Vandercrook treats Senator La Follette in his Sentinel letters. There is more danger in such a course to the little political giant, than in anything else. La Follette, only grows when he is fighting and fighting hard.

Feels Sure He's Against It.

Chicago Chronicle: It is not worth while to speculate on the question whether President Roosevelt is driving at government ownership of all the railroads. We shall know when he gets ready to tell what he wants. Until then it will be just as well for us to believe that when he said he was opposed to government ownership he meant it.

Doors Open to "Dutch Company."

Sheboygan Journal: Sheboygan has room for all of the emigrants from Holland who care to come here. The Holland Dutch are among the best settlers who ever came to America, and the 150 who arrived in Sheboygan yesterday will be a valuable addition.

to the city's population. More Hollanders and fewer Czechs, Lithuanians, and Greeks might be a good motto for local employers of labor to adopt.

Still the Age of Chivalry.

Louisville Courier-Journal: Is love a smaller factor in the problem of life in 1907 than it was when Leander in the Hellespont or when the walls of Troy rocked amid the shocks of the battles? Is no means. Women are loved and beaten, fought for and fought as strenuously today as in centuries gone by and lovers' play pranks as strange and commit crimes as violent at this good hour as they did when they wore doublets and round hose and carried rope ladders under their cloaks. Chivalry dead and Cupid's corpse moldering beneath the greenward? "Blood! Look to the columns of your paper for a dozen Romances a day. It is not the way of a man with a maid that has changed but merely the style of reporting.

Physician Discards His Hat.

Dr. Thomas L. Shearer, one of the most prominent physicians in Baltimore, has decided to go hatless for the rest of his life and will try to induce others to follow his example. Dr. Shearer holds that if men would only go bareheaded a generation or two the baldheaded man would become a thing of the past.

"Same Old Story"

A patient recently consulted Dr. Richards about needed family work. Had been paying \$10 each for gold crowns and was tired of the burden. Said had been doing so for social acquaintance and friendship sake, but couldn't see the use any more of paying twice as much for work as was necessary.

This is the way people look at it. When they think.

And the time most people think is when the bill is presented for payment. You may have the very best dental work obtainable in the city for \$5 a tooth and you may pay \$10 for the very same if you go blindly along. It's all in.

The call for lake ice this season has been unusually early, but the F. A. Taylor Co. are taking care of their customers in good shape.

NICARAGUANS TAKE HONDURAN CAPITAL

TEGUCIGALPA IS CAPTURED BY
FORCES OF ZELAYA.

BONILLA IS UNCONQUERED

Reorganizes His Army for Prolonged
Resistance — Peace Efforts at
Washington—Details of Cho-
luteca Battle.

Washington, March 26.—Senor
Corea, the Nicaraguan minister, Mon-
day night received a dispatch from
President Zelaya of Nicaragua, an-
nouncing the capture and occupation
of Tegucigalpa, the capital of Hon-
duras.

President Bonilla of Honduras has
reorganized his army and intends to
make a prolonged resistance to the
Nicaraguan forces. This news reached
the state department late Monday
from Phillip R. Brown, secretary to
the American legation to Honduras
and Guatemala, who is now at Teg-
ucigalpa.

Negotiations for peace in Central

America are being carried on with
great earnestness in Washington. Mr.
Greel, the Mexican ambassador, and
Mr. Corea, the Nicaraguan minister,
both called at the state department
Monday to discuss the Central Ameri-
can war with Mr. Root, and although
Mexico and the United States have
not as yet found a way to restore
harmony among the warring repub-
lics, it is believed that an arbitration
will be effected in a short time.

Details of Choluteca Fight.

Managua, Nicaragua, March 26.—A
few details of the capture of the Hon-
duran-Salvadorean position at Cholu-
teca by the Nicaraguan forces have
been received. The Nicaraguans took
quantities of field equipment. The
Hondurans and Salvadoreans had 200
men killed and about an equal number
wounded.

Some of the Nicaraguan wounded
who were captured by the enemy be-
fore President Bonilla fled are re-
ported to have been hanged and their
bodies barbarously mutilated.

President Zelaya has issued orders
to the Nicaraguan forces that all
wounded prisoners are to be treated
with proper care.

Sacking of San Marcos.

Puerto Cortez, Honduras, March 21,
via New Orleans, March 26.—News of
the sacking of San Marcos, Honduras,
under pitiful circumstances, an ac-
count of a fresh revolt in the interior
of Honduras and information of con-

siderable financial loss to American
interests because of the war have been
received here.

The sacking of San Marcos was re-
lated by Gen. Carcamo of the Hondur-
an army, who Nicaraguan dispatches
said had been killed at San Marcos
on February 26. Gen. Carcamo was
concealed for several days after his
defeat at San Marcos and finally
gained the Honduran lines uninjured.
He then gave an account of the out-
rages perpetrated on the women and
defenseless citizens of the captured
town, which he said was looted and
sacked by the soldiers of Nicaragua.
Details of his story have not reached
here.

Revolt at Camayagua.

The revolt reported here occurred
at Camayagua, Honduras, where March
20 150 armed men captured the
plaza. A force of 600 men was sent
from San Pedro to suppress this re-
volt and orders were given for a body
of Indian allies to join them on the
way to Camayagua.

The principal losses to Americans
have occurred in the banana industry.
The reports of the Honduras Inter-
Oceanic railroad, which transports the
greater part of Honduras banana out-
put from the interior to the seaboard,
say that the shipment of bananas has
already fallen off to about one-quarter
its usual volume.

Before The Footlights.

Is Santa Claus an Actor?
Howard Herrick, press representative for "The Clansman," tells of an amusing incident that occurred shortly after last Christmas.
"It happened to be in Dallas, Texas, the night that a serious play of Hall Caine's was being played," said Mr. Herrick, "and I went into the theatre to see a portion of the performance. One of the characters, a father of the church, wore a long flowing beard and the proper vestment. He had just made his exit in the midst of a most serious scene, when a little child of about four years of age, who was sitting with his father among the audience, piped in a most penetrating treble, 'Oh, papa, make Santa Claus come back.' The roar of laughter that followed from both audience and actors quite broke up the scene."

..Forty Years Ago..

Janesville Daily Gazette, Tuesday, March 26, 1867.—Illness of High School Scholars.—We learn from Professor Smith that quite a few of the scholars who usually attend high school are suffering from illness, which in two cases at least is of a dangerous character.

A Free Fight.—A regular row took place at a doggery just beyond the railroad depot, about 10 o'clock last evening. It commenced between Wm. Canary, Esq., and another gentleman who was making himself comfortable in the refreshment room of one Dan Scanlon, Esq. Not wishing a row in his saloon, the aforesaid Scanlon opened the door and showed the combatants out into the street. At this juncture the muss became general, and in the course of it Canary and Scanlon got some ugly cuts on the head. The gentlemanly Canary feeling aggrieved at the treatment he received, seized a shovel and most effectually demolished a window in the saloon of Scanlon. The ladies of the two pestered at actors became deeply interested in this stage, and made a vigorous dash at each other with a view of testing the tenacity of each others' chignon. The combat was "short, sharp, and decisive," resulting a drawn battle, each party losing largely in hair, and not being able to "show the best face on the matter" on account of sundry ugly scratches and gashes. We are sorry to say nobody was killed.

Removal of the State Capitol.—A large number of the citizens of Janesville met at the Council Room last evening to consider the proposition of moving the State Capitol from Madison to Milwaukee and Dr. John Mitchell was appointed Chairman of the meeting and Hiram Bowen, Secretary. A committee, consisting of Mr. Bowen, Morris C. Smith, R. B. Treat, Anson Rogers, and Franklin Whittaker reported the following preamble and resolution, which were passed and ordered forwarded to the senate and assemblyman from this district.

Whereas, A bill has been introduced into the legislature proposing to submit the proposition of the removal of the Capitol to Milwaukee, to a vote of the people of the State, on condition that the Capitol buildings be erected by the city of Milwaukee, equal to those of Madison, and be presented to the State.
Resolved, That we are in favor of the passage of said bill, and that the Senator and Assemblyman representing the county of Rock in the legislature are respectfully requested to favor its passage.

Wife President, Fairbanks Unable to Market His Corn.
Washington, March 26.—Vice President Fairbanks, who called on the president Monday to pay his respects, stated in reply to a question as he left the president's office that the railroad situation continued bad so far as the congestion of traffic was concerned. He stated that he had been unable to get corn from his farm to market and that his brother, who has a farm in central Illinois, is making the same complaint.

READ AND DIGEST A FEW FACTS

People will realize this spring that most all kinds of goods are higher. We carry such a tremendous stock, and placed such large orders for goods months ago before the sharp advances, that we are in a position to sell the same old reliable grades of goods, in many instances, at old prices.

More and more are thinking people learning that the assortments of dry goods, ready-to-wear garments, upholstery, curtains, carpets, rugs, etc., to be found here so large and complete that they cannot serve their best interests by staying away.

The temptation for merchants to offer poorer grades of goods this spring in order to sell at certain prices, and still show as much profit as they formerly made, is a strong one. Look out.

A WORD ABOUT THE WASH GOODS.

Without doubt, this is the largest and most attractive wash goods stock we have ever offered. The freshness of the goods, the beauty of the patterns are most inviting, and there are many exclusive styles for first choosers.

PLAN A RELIGIOUS
AWAKENING IN JUNE

Local Pastors Expect to Secure Ser-
vices of Evangelist C. R. Scoville
—Option on Rink for a Month.

It is granted that the trend of
the city's ways of late has not been
altogether in the direction of higher
living, that morality far from being
on the uplift is in reality on the to-
boggan, then the announcement of
the forthcoming religious awakening
in Janesville will be hailed with en-
thusiasm by those who look to and
strive for better things. Four
churches are thus far identified with
the movement and it is possible that
others may become allied with it.
Rev. R. M. Vaughan, Rev. J. H. Tip-
pott and Rev. J. W. Laughlin have
been in correspondence with Rev.
Charles Reign Scoville, the Chicago
evangelist, and have forwarded to him
a contract calling for his services
here during the month of June.

No answer has yet been received, but
the interested parties are confident
that he will accept the call and an
option on the West Side rink has
been procured. Thanks to Evangelist
Scoville and his five assistants, Log-

anport, Indiana, is at the present
time enjoying the greatest revival of
religious interest in its history. In
Austin, the Chicago suburb, where
meetings were held prior to the Log-
anport engagement, 800 people made
the profession of faith, and local min-
isters declared that the awakening
was the greatest the city had known.
Rev. Scoville did some notable work
in Monroe last summer and his repu-
tation is therefore not entirely un-
known in this section of the country.
The four churches thus far enlisted
in the effort are the Baptist, the Meth-
odist, the Presbyterian, and the Con-
gregational.

Brotherhood, Wis., March 25.—Cheese
factories and creameries hereabouts
are contracting for milk the coming
season at quite an advance over last
season. As high as \$1.15 per hundred
pounds is being paid and this will
certainly net the farmer a good in-
come.

Mr. and Mrs. M. H. Doolittle spent
Saturday night on Jordan Prairie
the guests of Mr. and Mrs. Will Kibbe.

Master Burdette, Purdy goes this
noon for a visit with relatives at Mon-
roe.

Mr. and Mrs. Marc Doolittle leave
on Friday for Evansville where they
stay over night with friends and
going next day to Barren, where they
visit with Mrs. Doolittle's sister and
family. From that city Mr. Doolittle
goes to Minneapolis where he will at-
tend an ophthalmic school, leaving
Mrs. Doolittle at Barren for a month.

Mr. Doolittle will return here to show
their household goods to their new
home in Sauk Center, Minnesota.

Miss Allie Bae is here from Milwa-
ukee for a few days visit.

Mr. and Mrs. Ed. Stephens of Foot-
ville were Sunday visitors in the city.

Mr. and Mrs. Edgar Smith of Evan-
sville, came across country Friday
afternoon and were the guests of Mrs.
Kate Doolittle until Saturday.

Mr. Carl Doolittle is out from Mil-
waukee for a few days visit with his
brother Marc and wife, ere they de-
part for their new home in the west.

W. B. Mack is in Monroe and Free-
port with friends for a week or two.

TOWN TALK.
The city's new dump-wagon was
responsible for an amusing little in-
cident on West Milwaukee street the
other day. The bottom of this ve-
hicle drops out or remains in place
subject to a ratchet-like device which
should be operated by the driver. In
this instance the "open door" adjust-
ment was still in operation and as Jerry
Murphy, a local refuse heap No. 1
aboard, it scantly slid out to the pave-
ment again several feet further on.
The wagon moved forward a few paces
and Mr. Murphy industriously at-
tached heap No. 2, which had been No.
1. The same operation was re-
peated and the veteran street worker
was well under way with heap No. 3,
which had been No. 2 and No. 1, when
a group of spectators who had been
watching the proceeding—with consid-
erable ill-suppressed mirth, could con-
tain themselves no longer and inter-
rupted the workers to point out the
error and utility of the endless task.

curred in the lecture hall during a

apparatus for chemical research were

faculty, and at the same time smaller
bombs were exploded in other parts

of the buildings.

**To Cure
Rheumatism**

The excessive accumu-
lation of uric acid must be
eradicated from the sys-
tem. Dr. Miles' Nerve
used as directed for rheu-
matism, is alkaline in na-
ture. It neutralizes this
acid, and its soothing ef-
fect upon the irritated
condition of the nerves
relieves pain and induces
sleep and rest.

It was suddenly taken with a severe
pain in my foot. My physician could
not tell what was the trouble. In a
few days I had the same trouble with
the other foot. I was so crippled that
I could scarcely walk and at times I
had to crawl on my hands and knees
from my bed down stairs. After I had
my shoes on for an hour or two
I could manage to walk by suffering
summer, and tried almost everything
but got no relief. Then I began to
have pains all through my system.
My doctor told me I had an acute at-
tack of inflammatory rheumatism. I
was in the hospital for weeks, but I
was scarcely able to walk when I left
it. I read about Dr. Miles' Nerve,
bought a bottle and also wrote the
Miles Medical Co. I had a letter from
them to add salt water to soda
to the Nerve, and I commenced to
get better from the start. After for
past six months I have scarcely any
pain, and am able to walk as well as
ever. O. Box 5, Rockaway, N. J.

Dr. Miles' Nerve is sold by your
druggist, who will guarantee that the
first bottle will benefit you. If it fails,
he will refund your money.

HOME ENDORSEMENT.

Hundreds of Janesville Citizens Can Tell You All About It.

Home endorsement, the public expression of Janesville people, should be evidence beyond dispute for every Janesville reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in far-away places. Read the following:
Mrs. B. F. Jones, of 157 Western Ave., Janesville, Wis., says:
"I was not free from attacks of backache for a single day during several years past, and used so many remedies without getting any relief that I came to the conclusion that nothing would help me and stopped trying. I went about all bent over, could not straighten up at all and had a dull pain across the loins and a feeling of weakness that made it hard for me even to rise from a chair. At night I would awaken with the feeling that a great weight was breaking my back, and anyone who has suffered from kidney trouble will know what torture I endured. Finally I saw Doan's Kidney Pills advertised and wondered if there was really any use of trying another remedy, but seeing them recommended by people in Janesville I got a box at the People's Drug Store and began using them. Gradually I regained strength and the pains and aches finally disappeared. Since I completed the treatment I have not had an attack of backache nor any symptom of kidney trouble, and I believe Doan's Kidney Pills worthy of all the praise that I can give them."

"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also affected, and the mind and judgment are clouded, and many an evil deed or impure thought may be directly traced to the impurity of the blood. **Purify the blood, and you can make pure by the use of Dr. Pierce's Golden Medical Discovery. It cures, purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.**

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist does not happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a "medicine of known" composition, having a complete list of ingredients in plain English on its bottle wrapper, the same being at once covered under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

Food That Reaches London.
The secretary of the public health committee says that the total amount of foodstuffs that reaches London yearly is between 2,500,000 and 3,000,000 tons, of which rather more than two-thirds arrive by water and less than one-third by rail. Three-fifths of the whole quantity is consumed by the Londoners, the remainder merely passing through in the course of transit elsewhere.

As the Message Read.
"It certainly is not difficult to make a mistake with the Morse code, the dot and dash system," said Mr. John Ardrin, C. B., who has lately retired from the post office. "I remember one amusing mistake being made, where a nobleman, having gone into the country, wired to his valet in London to the following effect: 'Send me tin box.' The message was delivered to the valet in the following words: 'Lend me ten bob!'"—From T. P. O.

Bridge a Felony.
Milwaukee Sentinel: The Utah legislature might seem to be suffering from an acute attack of brain storm superinduced by the ravages of an epidemic of bridge whist.

We have been under a haunting impression ever since the delivery of the Rev. William Austin Smith's historic sermon on bridge in Lent that devotion to the game is a bit overdone, and may be carried to a funereal extreme involving a loss of time that might be better spent in some other form of intellectual occupation. It is not good to specialize too much in our studies.

But surely making the playing of bridge whist for prizes a felony punishable by imprisonment for from two to five years in the penitentiary seems a little too drastic, and that is precisely what the Utah legislature apparently means to do.

This excellent measure is not a "freak bill," with no chance of serious consideration, like the celebrated anti-rights law of our cluste and Comstockian Assemblyman Hughes. Utah is in dead earnest. The bridge bill has already passed the senate by a nearly unanimous vote, and is said to be assured of the governor's signature if it gets to him. He has taken a firm stand for prizeless bridge.

Left Much to Imagination.
Charles Lamb, who said that "a speaker should leave something to the imagination of his audience," relates how, on being called on once to return thanks for a toast to his health, he rose, bowed to his audience, and said, "Gentlemen," and then sat down, leaving it to their imaginations to supply the rest.

Shy One Bull Fined \$200.
The manager who would advertise his 40 minstrels, "count 'em," in Mexico, and then put on his show with about ten men all told, would not escape as easily as he does in the states. Because the number of bulls produced for a bull fight in Monterey, the other Sunday, were one short of the advertised number, the manager was fined \$200 by the municipal authorities.

They Were There.
A Washington paper tells of a woman who was robbed of her pocketbook and of a city fireman who pursued the thief, caught him, and recovered the pocketbook, in which was 23 cents. The story appears to lack authenticity, however, as no mention is made of the usual dress samples in the pocketbook.

Not at That Time of Life.
A Milwaukee bachelor says that no woman has kissed him in 61 years of his life, and never will, "so help me God." If he's escaped to that late time in life, the chances are a million to one that he won't have to keep the girls away from him.—Atlanta Georgian.

Then—the clothes are found ready to "come white." Peosta Soap immediately begins its work of releasing all dirt and grease which will come out the moment the clothes are lightly rubbed—after a good soaking with

Beach's Peosta Soap

It saves the labor of hard rubbing, prolongs the life of the clothes in saving from wear and tear, will never injure the fabric, saves time and fuel. The Peosta Way makes boiling unnecessary.

3.—If possible, put the clothes to soak before breakfast, or the night before. Sort them, putting finest and cleanest together, the more soiled and coarser ones in a separate place. Look over table linen and remove fruit stains. Fill tubs with enough luke-warm water to cover clothes. Add to each tub of water

One Bar of Beach's Peosta Soap will do a large washing.
